local time, June 01, 2004.

This License Covers Permit No.: BPED-19970711MA,
as modified by BMPED-19990305IA

Subject to the provisions of the Communications Act of 1934, subsequent acts and treaties, and all regulations heretofore or hereafter made by this Commission, and further subject to the conditions set forth in this license, the licensee is hereby authorized to use and operate the radio transmitting apparatus herein described.

This license is issued on the licensee's representation that the statements contained in licensee's application are true and that the undertakings therein contained so far as they are consistent herewith, will be carried out in good faith. The licensee shall, during the term of this license, render such broadcasting service as will serve the public interest, convenience, or necessity to the full extent of the privileges herein conferred.

This license shall not vest in the licensee any right to operate the station nor any right in the use of the frequency designated in the license beyond the term hereof, nor in any other manner than authorized herein. Neither the license nor the right granted hereunder shall be assigned or otherwise transferred in violation of the Communications Act of 1934. This license is subject to the right of use or control by the Government of the United States conferred by Section 606 of the Communications Act of 1934.

Callsign: KBPB

License No.: BLED-20010503AAM

Name of Licensee: NEW LIFE EVANGELISTIC CENTER, INC.

Station Location: AR-HARRISON

Frequency (MHz): 91.9

Channel: 220

Class: A

Hours of Operation: Unlimited

Transmitter: Type Accepted. See Sections 73.1660, 73.1665 and 73.1670 of the Commission's Rules.

Transmitter output power: 1.20 kW

Antenna type: Directional

Description: SHI SHIVELY 6810-4-DA

Antenna Coordinates: North Latitude: 36 deg 22 min 12 sec

West Longitude: 93 deg 13 min 23 sec

	Horizontally Polarized Antenna	Vertically Polarized Antenna
Effective radiated power in the Horizontal Plane (kW):	5.5	5.5
Height of radiation center above ground (Meters):	55	55
Height of radiation center above mean sea level (Meters):	476	476
Height of radiation center above average terrain (Meters):	104	104

Antenna structure registration number: Not Required

Overall height of antenna structure above ground: 60 Meters

Obstruction marking and lighting specifications for antenna structure:

It is to be expressly understood that the issuance of these specifications is in no way to be considered as precluding additional or modified marking or lighting as may hereafter be required under the provisions of Section 303(q) of the Communications Act of 1934, as amended.

None Required

Special operating conditions or restrictions:

- 1 The permittee/licensee must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.

Special operating conditions or restrictions:

- 2 The relative field strength of neither the measured horizontally nor vertically polarized radiation component shall exceed at any azimuth the value indicated on the composite radiation pattern authorized by this construction permit.

A relative field strength of 1.0 on the composite radiation pattern herein authorized corresponds to the following effective radiated power:

5.5 kilowatts.

Principal minima and their associated field strength limits:

340-10 degrees True: 0.317 kilowatts

Dear Mr. Midlen:

The staff has under consideration the July 28, 2003, request for waivers of 47 C.F.R. Section 73.1125 filed by New Life Evangelistic Center, Inc.. ("New Life"),¹ to operate the

¹ A supplement to the request was submitted on August 20, 2004.

captioned stations, as satellite stations of its commonly owned noncommercial educational ("NCE") station, KNLG(FM), New Bloomfield, Missouri.²

Pursuant to Section 73.1125(a), a main studio must be located either (1) within a station's principal community contour, (2) within the contour of any other broadcast station licensed to its community, or (3) within 25 miles of the center of its community.³ However, under Section 73.1125(b)(2), the Commission will waive these requirements where "good cause" exists to do so and where the proposed studio location "would be consistent with the operation of the station in the public interest." Each waiver request by an NCE station seeking to operate as the satellite of another NCE station is considered on a case-by-case basis. The Commission has recognized the benefits of centralized operations for NCE stations, given their limited funding, and thus found "good cause" exists to waive the main studio location requirement where satellite operations are proposed.⁴ A satellite station must, however, demonstrate that it will meet its local service obligation to satisfy the Section 73.1125 "public interest" standard.⁵

New Life proposes to operate the captioned stations, as a satellite stations of KNLG(FM), New Bloomfield, Missouri, which are located up to 180 miles from New Bloomfield. Where there are great distances between parent and satellite stations, as here, and where the parent and satellite stations are in different states, we are particularly concerned that the licensee takes adequate measures to maintain its awareness of the satellite community's needs and interests. To that end, New Life has pledged to: (1) engage the services of a local resident in each community to conduct quarterly ascertainment of local community leaders and residents to determine the concerns and program needs of New Life listeners; (2) have the local resident serve as a liaison between the communities' residents and New Life's programming personnel; (3) maintain production facilities at each of these stations which can be used, as the need arises, to cover local events or happenings; (4) air programming responding to the ascertained needs in New Life's news and public affairs programming; (5) maintain a duplicate copy of each station's public inspection file on the New Life web site; (6) maintain an e-mail address for receipt of comments, suggestions, and other communications from residents of the stations' communities; (6) maintain a toll-free telephone number between each of the captioned communities and the KNLG(FM) main studio and (7) post a sign at each community's local production facility that provides information on how to view the public inspection for the station, and how to contact New Life through e-mail and phone service.

In these circumstances, we are persuaded that New Life will meet its local service obligations and thus, that grant of the requested waiver is consistent with the public interest.

² A "satellite" station meets all of the Commission's technical rules, however, it originates no programming and instead rebroadcasts the parent station's programming. See *Amendment of Multiple Ownership Rules, Memorandum Opinion and Order*, 3 RR2d 1554, 1562 (1964).

³ See *Review of the Commission's Rules Regarding the Main Studio and Local Public Inspection Files of Broadcast Television and Radio Stations*, 13 FCC Rcd 15691 (1998); recon. granted in part, 14 FCC Rcd 11113 (1999) ("Reconsideration Order")

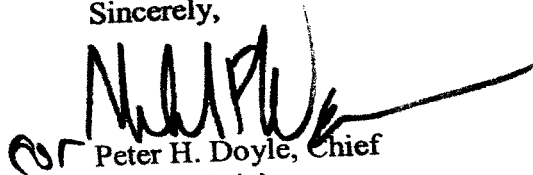

⁴ *Id.*

⁵ *Id.*

However, we remind Priority, of the requirement that it maintain the public file for the captioned stations at the main studio of the "parent" station, KNLG(FM). It must also make reasonable accommodation for listeners wishing to examine the file's contents.⁶ We further remind New Life that, notwithstanding the grant of the waivers requested here, the public files for each of the captioned stations must contain the quarterly issues and programs list for their respective communities of license, required by 47 C.F.R. Section 73.3527(e)(8).

Accordingly, the requests for waivers of 47 C.F.R. Section 73.1125, filed by New Life Evangelistic Center, Inc., ARE HEREBY GRANTED.

Sincerely,

Peter H. Doyle, Chief
Audio Division
Media Bureau

⁶ See *Reconsideration Order*, 14 FCC Rcd 11113, 11129 at Paragraph 45.

**RE: Erratum to Request for Waiver of Main Studio Rule
New Life Evangelistic Center, Inc.
KNLN, Vienna, Missouri
Facility ID #87389**

Dear Ms. Dortch:

On December 19, 2007, the undersigned submitted a request for a waiver of the Main Studio Rule for KNLN, Vienna, Missouri. In the second paragraph of that request, KNLN was mistakenly identified as the parent station for a group of co-owned stations for which the Main Studio Rule was previously waived. The station that has been the parent of the group and which is intended to be the parent station for KNLN is KNLG, New Bloomfield, Missouri. KNLG is the intended parent station for all of the co-owned stations with main studio waivers.

I regret any confusion that may have resulted from this error. Please contact the undersigned should you have any questions concerning this matter.

Very truly yours,

Donald E. Martin
Counsel for
New Life Evangelistic Center, Inc.

**RE: Request for Waiver of Main Studio Rule
New Life Evangelistic Center, Inc.
KNLN, Vienna, Missouri
Facility ID #87389**

Dear Ms. Dortch:

On behalf of New Life Evangelistic Center, Inc. ("New Life"), this is to request a waiver of the Main Studio Rule, §73.1125 of the Commission's rules, for its noncommercial FM station, KNLN, Vienna, Missouri. New Life proposes that its co-owned noncommercial FM station, KNLG, New Bloomfield, Missouri, operate as the parent station for KNLN and serve as the location for the main studio for KNLN.

On August 25, 2004, the Commission granted New Life waivers of the Main Studio Rule for its stations, KNLP, Potosi, Missouri, KNLM, Marshfield, Missouri, KBIY, Van Burean, Missouri, WCBW-FM, St. Louis, Illinois, KBPB, Harrison, Arkansas, KNLH, Cedar Hill, Missouri, KNLQ, Cuba, Missouri, and a new station without a call sign at Perryville, Missouri (Facility ID #88435). Under these waivers, KNLN serves as the parent station and its main studio is the main studio for all of these stations. A copy of the Commission's letter granting these waivers is attached and incorporated herein.

New Life hereby seeks to extend the main studio waiver to cover KNLN under the same conditions specified in the Commission's letter with respect to New Life's other stations. The facts described in New Life's original request for the waivers for these stations also exist with respect to KNLN and support extending the waiver to that station. If this request is granted, New Life commits to operate KNLN under the same conditions that the Commission has specified in its August 25, 2004 letter granting the waivers for the other stations.

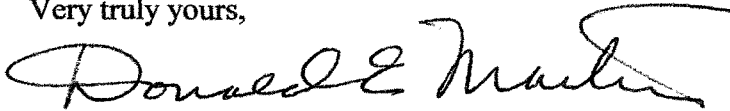

The Commission is advised that the Perryville, Missouri station with no call sign (Facility ID #88435) should be removed from the list of stations for which a waiver has been granted. That station was not constructed and its authorization has been returned to the FCC.

Ms. Marlene H. Dortch
December 19, 2007
